PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Where was the study conducted? Was at tertiary care or multidisciplinary hospital? Who has given the physiotherapy programmes or interventions to the patient? Was it by single trained therapist or a team? whether the care giver was involved in the therapy?</p> <p>Please put few images/pictures of physiotherapy programmes. It will be more attractive to the readers.</p> <p>Please mention the physiotherapy advises given at the time of discharge.</p> <p>Please include a table of chart of showing outcomes measures before and after physiotherapy intervention.</p>	
Minor REVISION comments	<p>Please reduces the goals to 2 / 3 only. Some short-term goals look overlapping.</p> <p>Mention the medical management given to the patients in short, if you have records.</p> <p>Mention the views of x ray chest. for example, AP / PA view, erect or laying down.</p> <p>Better to put x rays (before and after) together side by side for better comparison.</p>	
Optional/General comments	<p>Physiotherapy duration was short. Needs few more follow up.</p> <p>Was the consent taken from the patient?</p>
