PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	This is an interesting narrative review regarding the evaluation and management of cerebral vasospasm after subarachnoid hemorrhage. The study is valuable, sound and well written. I consider that the data presented in this study can make significant contribution to clinical practice. I kindly recommend to include the main aspects of the study in a figure or in a table.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
