PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	.	
Minor REVISION comments	<p>Mention in Methodology - Milk sample analysis being done on day 1 in Pre- intervention phase. It will give the baseline values (Control) for comparing milk quality and quantity and will prove the effect of intervention</p> <p>Mention – Who will perform the breast stimulation and whether it will be observed by nursing staff to ensure correctness. A video can also be played to guide the mother through the steps of breast stimulation.</p> <p>Mention –</p> <ol style="list-style-type: none"> 1. whether the STAI 5-S and Breast milk Expression Experience Measure will be translated in vernacular language. 2. Are these self-administered or will be administered by the researcher? 3. Whether both the scores are free to use or need permission? 4. References for both scores are to be mentioned. 5. The correct name of STAI 5-S seems to be STAIS-5 (https://www.sciencedirect.com/science/article/pii/S0165178120300834) 	
Optional/General comments	Good protocol
