PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Greetings, It's a well written protocol. Study aim and objectives are well addressed.</p> <p>Post operative follow up needs to be defined in terms of evaluation end point for each objective</p>	
Minor REVISION comments	<p>Query Methodology:</p> <ol style="list-style-type: none"> 1. No mention of oral hygiene measures post-surgery. Will there be any antiseptic mouth-rinse or gargle advised? Concern plaque accumulation around barbed sutures can influence healing therefore inflammation. Kindly address the same 2. Would suture be left to bioeroder by natural process or shall they be removed after 3. Mention in time line post operatively how follow up for each objective measurement would be performed 4. Mention ethical clearance details and clinical trials registry details if available 	
Optional/General comments	Well written protocol
