Type of the Article	

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journalipri.com/index.php/JPRI/editorial-policy>

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	Change the title to A study design for awareness regarding Appropriate Antimicrobial use and antimicrobial resistance among health care professionals and lay persons.	
<b>Minor</b> REVISION comments	There are few markups reported in the manuscript	
<b>Optional/General</b> comments	Is the study conducted or still planned?	

**Comment [iah1]:** I suggest to change the title to that.... Because when I read the title I was expecting a done study not an expected results or planned study

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
