Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journaljpri.com/index.php/JPRI/editorial-policy>

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none">1. Under study design, how they concluded the sample size? Please mention the theory or equation2. Under selection criteria there is a statement "Subjects willing to take part in the study". What does they mean by subjects, please explain little more.3. Subjects are mainly junior residents, why not to include seniors as they could do it more properly to distribute awareness among juniors, interns?	
Minor REVISION comments	Please focus on format as many word start with capital letter like Antimicrobials in the middle of a sentence and I guess this is not so nice.	
Optional/General comments	Please add abbreviation section as there are few short forms and it needs to abbreviate	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
