

## Review Form 1.6

Journal Name:	<a href="#">Journal of Pharmaceutical Research International</a>
Manuscript Number:	Ms_JPRI_80090
Title of the Manuscript:	Study of clinical Profile and Management of LABC- our experience
Type of the Article	Original Research Article

### **General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journaljpri.com/index.php/JPRI/editorial-policy>

**Review Form 1.6**

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Compulsory</b> REVISION comments	<p>I have evaluated this manuscript as best I can.            This isn't a well-written manuscript in terms of structure and language. Also there are errors in the technical writing, it needs to be edited.            This work isn't useful.            24 references are given, the references are sufficient.            In this study, they mainly aimed to focus on clinical profile, diagnosis and treatment modalities for locally advanced breast cancer.            To this end, they planned to discuss various therapeutic modalities.            however, they seem to be unable to do this adequately.            May be published in the Journal of Pharmaceutical Research International.            Its most important limitation is that it does not add new information to the current literature.</p> <p>Kind regards.</p>	
<b>Minor</b> REVISION comments	<p>I have evaluated this manuscript as best I can.            This isn't a well-written manuscript in terms of structure and language.
