

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_80103
Title of the Manuscript:	Evaluation and correlation of preoperative serum C - reactive protein, neutrophil-lymphocyte ratio and platelet-lymphocyte ratio for cervical metastasis in patients of primary oral squamous cell carcinoma
Type of the Article	Study Protocol

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljpri.com/index.php/JPRI/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Good article for publication. However, there are grammatical errors and incomplete statements that need to be corrected and rephrased respectively. The author needs to read through the entire script and effect the corrections. Recommendations / suggestions: 1). This study needs a 'statement of problem'. 2). Justification for the study should be added. 3). The aim of the study should be included despite the objectives. (The aim is what you want to achieve, while the objectives are the steps you will take to achieve the aim). 4). Ethical clearance should be considered before commencement of study and mentioned in the manuscript.	
Minor REVISION comments	The author's discussion, though not expected for a proposal, fits a good literature review for the Introduction section.	
Optional/General comments	NIL	

Review Form 1.6

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
