PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Australian dpmp is 18 in 2020 and 21.6 is 2019, the 11 dpmp is in 2009. In the heading of inadequate Institution support there are papers which speaks about lack of trained intensivist in organ donation to initiate this conversation with the family when a donor is recognised. I think this need to be explored. Under the heading of death a taboo subject using public campaigns or education through support of religious leaders helped in consent for organ donation may need to eb explored. There are many papers on this practice. The legislation status for donation after cardiac death has not been explored.	
Minor REVISION comments		
Optional/General comments	I think the author may need to refer few more papers with current donation rates and change in practices in this paper.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
