PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 39.75% (159) respondents complained of varying degree of headache and or migraine .	I agree with the author that excessive use of cell phone may cause headache but does not usually cause migraine instead people having previous migraine may find an exacerbation of migraine attacks.	
Minor REVISI The demographic characteristics of study participants arte other tropical eye Reference	Spelling mistake are Spelling mistake topical References	
Optional/General comments	Though female preponderance has been established by the study, there is a biasness in the study because Female study population is more otherwise I don't think there is any sex predilection.
