PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Topic: "Peoples" should be "People" What are the total numbers of vaccinated and non-vaccinated people in the test area? And what percentage of these individuals were involved in this study?</p> <p>The entire manuscript must be proof-read by an English expert to ensure correct usage of punctuations, prepositions and subject-verb-agreement</p>	
Minor REVISION comments	<p>Abstract: Background: the capitalization of "Study" and "Conducted" should be corrected. Results: "develop no symptoms": should be re-written (it could be re-written as "developed no symptom"). Introduction: Platelets are..."cells" that continue Check spacing of words as no and double spacings were detected. Check the capitalization of highlighted words Sample collection: "cleaned by" should be replaced with "cleaned with" and check punctuation Results: "No any thing" should be re-written as "no symptoms"</p>	
Optional/General comments	<p>The manuscript provides new knowledge and serves a reference for future studies. The only problems found here are mainly grammatical errors. Therefore, after corrections of these errors, the manuscript can be considered for publication.</p>
