	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments		
Optional/General comments	<p>Premenstrual syndrome can affect women of reproductive age both mentally and physically every month for about 40 years, from menarche to menopause. In order to better understand the nature of women, what premenstrual syndrome is should be known by every member of the society. Especially partners, friends and employers must have information about this issue in order to have a healthy relationship with the woman they are in contact with. Therefore, it is meaningful and important that you address this issue. Thank you for giving the opportunity to evaluate.</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
