PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Abstract: Focus on some more definition of PMS. Introduction: I would prefer to add some data on facts about PMS and its knowledge to support your study and there is lack of reason why you are doing this study in your introduction part. Method: You can set boundaries of sample size like specific age group or which standard you take students.	
Minor REVISION comments	Rephrase Introduction by adding some facts and reasons.	
Optional/General comments	This is an interesting study as author focus on one of the most less common but serious condition and I believe after awareness we can overcome this issue by lifestyle modification	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
