

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_80291
Title of the Manuscript:	Fabrication of Transdermal Matrix Patch of Lercanidipine Hydrochloride using Natural Polymer and Essential Oil
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Introduction</p> <ul style="list-style-type: none"> - Additional explanation of HPMC K15M is required. Why that polymer was used with psyllium in this study? - Clear objective of this study should be added in Introduction section. <p>Table 1</p> <ul style="list-style-type: none"> -What does LCDH stand for? There is no explanation about that acronym. <p>Fig1~3</p> <ul style="list-style-type: none"> -The title (A, B) of the picture and the contents (A, B) in the picture are not matched each other. Clear description is needed, additionally brief method or main result for each Figure should be added in each figure legend. 	
Minor REVISION comments	<p>Discussion</p> <ul style="list-style-type: none"> - What is the limitation of this study? or What kind of investigations are needed as further studies? - Brief reason and process on decision of 'final optimized batch' should be described in Discussion section. 	
Optional/General comments	<p>This manuscript entitled 'Fabrication of transdermal matrix patch of Lercanidipine Hydrochloride using natural polymer and essential oil' described very clearly about development of a transdermal matrix patch of Lercanidipine hydrochloride used in the treatment of hypertension, using various experimental assays. Even though this study is useful, novel and interesting, some part of this manuscript is a little ambiguous, so minor revision is needed.</p>
