

## Review Form 1.6

Journal Name:	<a href="#">Journal of Pharmaceutical Research International</a>
Manuscript Number:	Ms_JPRI_80308
Title of the Manuscript:	The burden of disease and risk factors of iron deficiency anemia in preschool children attending The Well-Baby Clinic in the National Guard primary Health Care Centers in the western region of Saudi Arabia
Type of the Article	Original Research Article

### **General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljpri.com/index.php/JPRI/editorial-policy>)

### **PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	In the result section, it says that there are 144 boys-141 girls. That makes 285 in total. However, the total sample size was specified as 286. There is a conflict. The value is given and the colour it shows in figure 2 are incorrect. It is stated in the table that there are 215 breastfed children. However, the total number in the duration of breastfeeding children and the total number of breastfeeding children are not the same. The total number of children eating dried fruit given in the table is 285.	
<b>Minor</b> REVISION comments	I have no minor revision.	
<b>Optional/General</b> comments	The subject should be advanced from the general to the specific in the introduction. Anemia can be mentioned first and then iron deficiency anemia can be mentioned. Was a certified health report obtained from the families, or was the type of anemia recorded only with a survey?	

### **PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
