Title of the Manuscript:	
Type of the Article	“Association of Depression with Polypharmacy among Diabetic Patients of Geriatric age group in Tertiary Care Teaching Hospital.” Study Protocol

### **General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journalprijournal.com/index.php/JPRI/editorial-policy>

### **PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments	The organization of the whole manuscript is chaotic, especially the introduction section, the authors want to investigate the relationship between polypharmacy and depression in geriatric patients with DM, the authors didn't focused on this aim, but repeatedly introduce the DM, depression, geriatric syndromes and polypharmacy, the background relationship between them and the research status were lacking. So, please re-write the manuscript clearly. Many grammar grammar and spelling mistakes should be revised carefully, such as, capitalization of an proper nouns in the middle of a sentence is unnecessary; “a epidemic in India”, a should be an, and so on The statistical methods are inappropriate, depression is multifactorial, and you should adjusted any other confounding factors.	
<b><u>Minor</u></b> REVISION comments		
<b><u>Optional/General</u></b> comments		

### **PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
