	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	This is a work that frames a very old problem in our civilization. "Problem" in the sense that it involves various taboos that are mentioned in the article. I think it is excellent to have taken up this theme that involves continuing as a "more civilized" civilization.	
Minor REVISION comments	This work complies with being of the revision type, since the references are up-to-date and are pertinent. The references (citations in text) must be in square brackets? And here are many words "stuck" with the text citation	
Optional/General comments	An excellent and interesting work, but some corrections must be made in the text that I send marked in "yellow"
