This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journaljpri.com/index.php/JPRI/editorial-policy>

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	Does not present the research objective in the introduction The article does not show the results session. In the discussion, he used the DSM IV as a basis, but the DSM V has been in existence since 2013, I consider updating this reference some quotes used in the text are not present in the references The way of citing is not adequate to the norm, in the conclusion the author date model is used, not numerical.	
Optional/General comments		

PART 2:
