

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_80344
Title of the Manuscript:	Role Of Diet, Exercise for Improvement of Immunity
Type of the Article	Review Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljpri.com/index.php/JPRI/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	This is a review of the literature where the subject treated is interesting and fits the aims and scope of the Journal of Pharmaceutical Research International (JPRI). The authors contributed to a review showing the effect of nutrition and metabolism on the functioning of the immune system while emphasizing on chronic disease and immune responses in a simple and consecutive manner.	
<u>Minor</u> REVISION comments	The revision has been carried out with corrections marked in red (here attached the manuscript). The remarks are as follows: -I propose to the authors the following title: Diet and immune system relationship: An overview -the manuscript is well organized, and offers rich information on the main cells involved in the innate and acquired immune systems -please put only the essential keywords for the summary part -Please, the conclusion part need to be improved. -Author guidelines requirements must be respected (references). Good luck	
<u>Optional/General</u> comments	A good bibliographical review and I recommend to publish it.
