### **General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalpri.com/index.php/JPRI/editorial-policy>)

### **PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	Since lack of authors' constructive poinr of views, it give impression that it is just collection of paper abstract. This level of writing was already done by others. Then I would like to know your own papers published in the past. 1) many abbreviations that hinders understanding, 2) more detailed descriptions on each bioactivity of BP, likely; anticancer, without any persuasive data, anti-Covid with no define writings, block receptor or killing action?, ScanMS but no photo.... so on. I appreciate your efforts to make this kind of review, and I also have interest and doing works on Bio-functions of food stuffs. Will you give me representative your own the title you had done in the past, if it is allowed .	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments		

### **PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
