Manuscript Number:	Ms_JPRI_80427
Title of the Manuscript:	Review on Different Methods of Serum Bilirubin Estimation
Type of the Article	Review Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljpri.com/index.php/JPRI/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1. Include the figure numbers in text and cite as reference	
Minor REVISION comments	1. Please check and make minor corrections in the spellings of medical terminologies in the context 2. In conclusion, make the paragraph crisp and do not mention the comparison parameters instead I suggest to write it in form of that is the final result of the study with brief on limitations and future approach. This could be followed by additional sentence on the importance of the usage of these tools in neonates.	
Optional/General comments	The research is novel and structured properly. Appreciate the idea and the practicality usage of the research model. In terms of manuscript, make minor changes in order to make it more understandable	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
