## Review Form 1.6

### **PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>Blood clots have been discovered in the minute blood vessels of various organs like lungs, heart, liver, and kidney, on post mortem examinations of a significant percentage of COVID-19 patients. These blood clots can cause ischemia of the tissues or organs in which they are lodged. Thus, this aspect of COVID-19 disease has become an area of research and requires adequate concern.</p> <p>The manuscript is complex, but also concise. It is written on fourteen pages, two of which provide references. It consists of the parts entitled Background, Objectives, Introduction, Pathophysiology, Clinical picture, Laboratory findings and the Treatment.</p> <p>There are no figures and tables clarifying the text.</p> <p><u>Content suggestions:</u></p> <ol style="list-style-type: none"><li>1. I would like to recommend the addition of the figures and tables.</li><li>2. Please, write more and more profoundly about the pathomechanisms of thrombosis in COVID-19, as such review would be very useful for further practice.</li></ol> <p>The article can be published after the improvement of the manuscript according to the suggestions of the reviewers.</p>	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments		

### **PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
