Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljpri.com/index.php/JPRI/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<p>1-The idea is interesting. However the discussion is somewhat deficient. The authors should discuss the impact of ethnic difference on prevalence of MetS in both ethnic groups.</p> <p>2- The introduction is too condensed, it should be summarized with the addition of the importance of studying the MetS as a cause of target organ damage . I recommend the following reference (What Is the Effect of Metabolic Syndrome without Hypertension on Left Ventricular Hypertrophy? Mohammad M. Al-Daydamony M.D., Mohammad El-Tahlawi M.D. <i>Echocardiography</i> 2016; 33: 1284– 1289</p>	
<u>Minor</u> REVISION comments	The language needs some corrections. Many typo errors that are highlighted in the attached file.	
<u>Optional/General</u> comments		

Review Form 1.6

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
