

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_80517
Title of the Manuscript:	Effectiveness Of Immunotherapy on Covid-19
Type of the Article	Review Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journalpri.com/index.php/JPRI/editorial-policy>

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The current review paper is connected with development of novel methods about immunization against SARS-CoV-2/COVID-19, in which together with strategies of passive and active (by vaccines) immunization are included additional boosting components for additional activation of the anti-viral (similarly to anti-malignant) immunity on the one hand, but also prevention of non-wished side effects, on the other	
Minor REVISION comments	My recommendation is related with a suggestion to the authors for development also of based on nano-particles anti-malignant vaccines and of anti-malignant gene-engineering manipulations in the future	
Optional/General comments	The current manuscript should be published in the upcoming issue of "Journal of Pharmaceutical Research International" after small corrections	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
