PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 1.The abstract is not written in comprehensive manner.It is not clear from the abstract what typr of study, techniques, and other criteria is being utilised for this review. 2.There are multiple grammatical errors in the manuscript. 3. The entire manuscript needs revision as it is not written systematically as an article has to be written. 4. The review of the diseases has to follow a system, country wise, disease wise, inclusion and exclusion criteria, past prevalence, versus recent prevalence. 5. This article is just a copy paste of articles picked from various journals. 6.Advise to the authors- Please go through some review articles published in indexed journals before you write on.	The entire article has to be rewritten. As the authors are not clear in stating their objectives in this article. The study is without any systematic methodology.	
Minor REVISION comments	The entire article has been copy pasted from various journals. The authors have simply put the lines together without defining the objectives , methodology, consequences of the study.	
Optional/General comments		

Review Form 1.6
