

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_80590
Title of the Manuscript:	Ischemic stroke in COVID 19: A systematic review
Type of the Article	Review Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journaljpri.com/index.php/JPRI/editorial-policy>

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The sample size of Study numbers 3, 4 and 6 is too small to be included and could be affected by various biases. The authors must to consider age groups and other comorbidities among the studies and mention it in the review. Was Procalcitonin considered in the studies? On the whole the data is very limited for a review article. It is surprising that over 600 manuscripts on the subject were rejected because the complete article was not available. Most articles on Covid 19 are available easily and gratis. The authors may consider reselection of suitable manuscripts.	
Minor REVISION comments	Some corrections for typographical errors have been suggested in the attachment.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
