

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_80623
Title of the Manuscript:	Assessment and Comparative Study of Biofilm Formation with frequency of Multi Drug Resistance in strains of Staphylococcus aureus
Type of the Article	original

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journaljpri.com/index.php/JPRI/editorial-policy>

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Authors should also indicate the specific research questions that the planned research project aims to address. The methods and results are not convincing in organized and sequential. Must be written in abbreviated form. I am confused about Tables. In the discussion, the authors focused only on a simple comparison between their results and those of others, and settled for similarities or differences without explaining the essence of the difference between these studies. Authors should rewrite the discussion in a way that is clear, understandable, and supported by scientific evidence.</p>	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>	

Review Form 1.6
