

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_80766
Title of the Manuscript:	“Correlation of MTHFR Gene Polymorphism with Male Infertility”
Type of the Article	Study Protocol

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journaljpri.com/index.php/JPRI/editorial-policy>

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	Minor revision comments marked in the original word file in review box	
Optional/General comments	Male infertility is a big problem especially in countries characterized by the increased number of offspring like Egypt or India. It is an interesting point of research in spite of lacking novelty. MTHFR polymorphism is a relatively common genetic mutation, there are two common MTHFR mutations, C677T and A1298C, you may determine the type of mutation in the title and in all parts of your protocol of study to avoid confusion.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
