PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	I can highlight that this study presents an interesting theme in associating BMI with breast cancer. Therefore, I suggest continuing the research.	
Minor REVISION comments	I suggest checking the years and dates in which the aforementioned studies were carried out during the research.	
Optional/General comments	Not comments	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<p><i>(If yes. Kindly please write down the ethical issues here in details)</i></p> Yes, the present study must be presented in an ethics committee In order to be approved for the research to be carried out. It is noteworthy that the authors mentioned this matter in the course of the research. I believe your approval will be out soon.
