General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljpri.com/index.php/JPRI/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	Dear editor and authors - The trial subject is interesting. - I read the protocol but did not see the trial number. Is the clinical trial registered somewhere? If registered, specify the number. - If the protocol is based on WHO recommendation is better. please see the WHO recommendation at https://www.who.int/groups/research-ethics-review-committee/recommended-format-for-a-research-protocol/ . Please draw a schedule table based on WHO's suggestion.	
Optional/General comments		

PART 2:

	<i>Reviewer's comment</i>	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i> It has been said to some extent, for example, the approval of the ethics committee and obtaining informed consent. But it is also necessary to trial register in a registry
