

## Review Form 1.6

Journal Name:	<a href="#">Journal of Pharmaceutical Research International</a>
Manuscript Number:	Ms_JPRI_80831
Title of the Manuscript:	Estimating the correlation of Ankle Brachial Index with vascular risk factors in Pre-diabetics
Type of the Article	Original Research Article

### **General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljpri.com/index.php/JPRI/editorial-policy>)

### **PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	The authors aimed to evaluate the association among Ankle Brachial Index and demographics profile and anthropometric measurements like BMI, Waist hip ratio, and neck circumference. The authors also aimed to evaluate the association between ABI and cardiovascular menace variables vs. lipid profile. My major concern is that I have not found any results in the manuscript. The manuscript rather looks like a short research proposal than a manuscript of an original article. The authors may make a mistake while submitting the manuscript.	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments		

### **PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
