### **General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljpri.com/index.php/JPRI/editorial-policy>)

### **PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>To rewrite the manuscript in proper tense, the research had been concluded.</p> <p>The concept of research is good, the methodology was grossly inadequate. The author did not write the preparation of samples and method involved properly. May be he/she just copy what was written in the thesis. What was done should be clearly written The tense of the write up is totally wrong, this is not a proposal written in future tense. The authors should please write in proper tenses or follow the guidelines of the journal</p>	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments	The concept is good, adopted methods are ok, but not properly presented	

### **PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p> <p>Yes, since it involved animal study, ethical clearance certificate is required before publication.</p>
