PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>I would like to congratulate author and his/ her team for paper and appreciate their work during the covid 19 pandemic. Certain remarks i would like to make which i think may improve his manuscript.</p> <p>1.(line 2 and 3 in title)- Author mention about suspected COVID 19 patients for emergency surgery. However case described by author was about regional anaesthesia only and not all other major surgeries. So can author be more specific about the details of surgery in title such as major or minor or for only regional or minor surgery with high risk cases required general anaesthesia.</p>	
Minor REVISION comments	<p>1(line no 55) – what was coagulation profile of patient? Was medication withheld prior to surgery if yes for how many days? As surgery was emergency.</p>	
Optional/General comments	<p>1.(line no 41, 42).- Can author add clinical image of diabetic foot wound (pre operative /post operative)</p> <p>2. (line no. 41, 42 ,and 59)- Can this was to be perform under simple ankle block ? what was operating surgeons opinion on the same.</p> <p>3 (51-54)- Whether author did Rapid antigen test for covid or TRUNAT test for covid -19 pre-operatively?</p>
