### **PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments		
<b>Minor</b> REVISION comments	In introduction section, when its introducing the consequences of placenta disorders, it could be interesting that these diseases, ex: growth retardation, low birth weight fetus, premature birth, stillbirth are accompanied with its incidental or prevalence numbers, to show the importance of early detection of pregnancy issues.	
<b>Optional/General</b> comments	<p>The sentence 5-8% worldwide women are affected by hypertensive disorders appears at least in three different sections. I suggest reserve it only for introduction section and explain why in lower incomes countries the hypertension disorders are more prevalent, and in the remaining sections do not mention or do it indirectly.</p> <p>It could be interesting read about authors suggest to deepen in those correlation found, and if exist, some clinical tools that can be applied to improve the detection and treatment of hypertension during pregnancy.</p>	

### **PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
