PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The manuscript is not well written. There isn't any important information that the doctors in India wouldn't have access right now. This manuscript is not going to add anything interested and new to the scientific field. The manuscript just shows the result analysis of questionnaires sent to several ophthalmologic private and public clinics. The manuscript will need to improve in so many aspects, mostly in English grammar. I tried my best to include comments (scan attached).	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
