PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|---|--|
| Compulsory REVISION comments | | |
| Minor REVISION comments | | |
| Optional/General comments | It is a study like all interesting research, we must always explore new things for the benefit of the patient's health. Stress affects many things in our body. It has some bioethical aspects to consider in the patients that were used in the study, which should be exposed in the article and the type of study should be specified. for my part is everything. keep going with your research. | |

PART 2:

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|---|--|--|
| Are there ethical issues in this manuscript? | <i>(If yes, Kindly please write down the ethical issues here in details)</i> | |
