PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The manuscript offers a different point of view for evaluate all cardiovascular risk factors in obese patient, that is really necessary because now days the obesity is a pandemic disease, that are affecting development populations and poor too.</p> <p>I suggest to add at the end, new treatments or attention protocol depending of the results and risk cardiovascular factor of each case.</p>	
Minor REVISION comments	<p>Nowadays the scientific literature is changing constantly, because of that the literature of this kind of article must to be under 5 years of publications. In this article, the 88,8% of articles are before 2016 and only 11,1% were publicized since 2016. This must be change urgently, using pubmed database for example.....</p>	
Optional/General comments		

PART 2:
