Compulsory REVISION comments	<ul style="list-style-type: none"> The manuscript proposed is flawed and scientifically not coherent. The main flaws of the manuscript are the form, and the article structure. The manuscript needs a serious major review of form, as the most paragraphs are confusing making it almost impossible to understand the information presented by the Authors. The presented information should be well discussed based on other research works. Written in this way, it is hard even to understand the aim of the review. Almost all the parts of the manuscript are not clear, non-organised and should be re-written. <p>The manuscript needs revision to be considered for publication in Journal of Pharmaceutical Research.</p>	
Minor REVISION comments	The most part of my review is within the text of the submitted paper	
Optional/General comments	The most part of my review is within the text of the submitted paper
