<b><u>Compulsory</u></b> REVISION comments  It is important to provide a more specific focus on the physical, emotional, and social harm to infants as a result of violent parenting. I highly recommend referring to the studies of Dr. Shonkoff, Center of the Development Child, (Brain impact) Likewise, violent upbringing throws their children into the streets, into substance use and, as a consequence leads them to a criminal life.	A revision in the manuscript is suggested as it has many words stuck together and some contradictory phrases like the following, in the "Abstract"  <b>research have shown that authoritative parenting style is good to the child in the long run</b>	
<b><u>Minor</u></b> REVISION comments		
<b><u>Optional/General</u></b> comments	When referring to a study or research, the source must be indicated. I suggest review
