### **PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<b>All methodologies must be sited as appropriate</b> <b>The tables are numerous, some can be merged and some figures are nothing but the repetition of the tables which are not necessary.</b> <b>Most references were not sited and the few sited have not followed the standard referencing styles and must be reviewed.</b>	
<b>Minor</b> REVISION comments	Red and green text in the manuscript indicated things that need corrections. I have corrected some using green and a few questions and corrections have been indicated using red. In the methodologies, future tenses have been used instead of reported speech. Some results have to be summarized All tables must be presented in three lines (see table 1 as corrected)	
<b>Optional/General</b> comments	The author needs to go through the manuscript and do some thorough work as indicated. This can easily help the researcher in his/her future publications. Good luck to everyone.	

### **PART 2:**
