### **PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	In the Graphs 1 and 2 please indicate what a,b and c mean. If I understand correctly, they are used as symbols for between-group differences, but please indicate either in the legend or the Graph itself which difference is symbolized by each letter.	
<b>Minor</b> REVISION comments	In the last paragraph of the Introduction the following sentence needs rephrasing "At normal levels, cholesterol actually plays an important role in helping cells do the job but culture actually plays an important role in helping cells do their job" because it has a repetition.	
<b>Optional/General</b> comments	The manuscript is interesting and evaluates the anti-cholesterol and anti-oxidant nature of two common plant products. I believe that it will be of interest to the readership of the Journal of Pharmaceutical Research International. Nevertheless, it needs extensive proofreading in terms of grammatical and syntax errors.	

### **PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
