PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The review is a routine work without any innovative insight. The quality of English is very poor; even the title is not written correctly. The abstract and conclusions do not have any merit. A lot of plagiarized part is also there. The review should be more appropriate if its constituents have been documented and characterized for its various properties with precise action mechanism. The references are not in the line of journal's guidelines.
