

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_ JPRI _81664
Title of the Manuscript:	Gene expression analysis of specific genes related to genomic stability in colon cancer cell lines - a resource for cancer research
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljamr.com/index.php/JAMMR/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none">1) Do authors have preliminary data to support that telomeric proteins to enhance the genomic instability through controlling DNA damage response? If it is please include as supplementary documents.2) Authors should add the detailed statement in conclusion that how the findings provided in this study helps researchers to choose the appropriate cell lines for cancer design and clinical therapies.	
Minor REVISION comments	Authors are request to reduce the number of reference to 40	
Optional/General comments	Authors assigned the present work very well, and need to modify little for publishable quality.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
