Review Form 1.6

PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|--|---|
| Compulsory REVISION comments | | |
| Minor REVISION comments | <p>Dear Dr. The manuscript is nice, but should be promoted according to:</p> <p>Abstract: methodology should be mentioned step by step, for example: the period of study, type of study, sample size, location, place of study, etc.</p> <p>Introduction: it is nice.</p> <p>Method: It should follow a framework and rule: for example, type of study, place of study, date of study, how to calculate the sample size, method of data collection, research ethics, etc.</p> <p>Results: First of all, separate the result from the discussion. In Table 1, the percentage column should be added and the percentage should be used in the whole result, not the number. Then sort the results by main goals.</p> <p>Discussion: At the beginning of the discussion, bring the main and the most important findings of your study. The discussion should be based on the study objectives and study findings.</p> <p>Conclusion: Conclusions should meet the main objectives of the research.</p> <p>Also at the end add the Abbreviation, too.</p> | |
