

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_81759
Title of the Manuscript:	Effects of surgical changes in digestive system on the pharmacokinetic behaviors of orally administered drugs
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journaljpri.com/index.php/JPRI/editorial-policy>

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. Please review English . Needs major revision across the document for example "the number of patients requiring bariatric surgery is growing at a constant and rapid rate. <u>The</u> anatomical modifications of the gastrointestinal tract often <u>led</u> to a significant alteration in the pharmacokinetics of orally administered drugs in terms of absorption of drugs and the bioavailability of oral medications required after the surgery. The <u>present</u> investigates the correlation between reduced body mass following bariatric surgery and the bioavailability of orally administered drugs. This warrants clinical studies to.." 2. In the introduction, "continually growing" please provide number 3. When discussing about types of bariatric surgery I will recommend surgeries have traditionally been classified into three categories on the basis of anatomic changes: restrictive, restrictive malabsorptive, and malabsorptive. In this paper you are describing the 2nd two types 4. It is not relevant to discuss non-pharmacologic treatments 5. In the paragraph on transporters, please explain the effects of gastric bypass on these transporters 	
Minor REVISION comments		
Optional/General comments
