

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_81813
Title of the Manuscript:	Sequences of S-surface of human COVID-19
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalprijournal.com/index.php/JPRI/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Not applicable	
Minor REVISION comments	<p>I highlighted the revisions in the Manuscript and transcribed for this form:</p> <p>I believe that the discussion was insufficient, given the results presented in the previous topic. The work is rich in information but ends in a way that do not include a conclusion or final considerations. Authors please review this section.</p> <p>An important point is the data presented in the Results and explanations in the discussion.</p> <p>In this topic, the authors characterize findings of characteristics such as gender and age of patients. However, in the discussion they do not explain what the possible associated factors would be. Was there any reason? It would be important to correlate the results with the discussion.</p>	
Optional/General comments	Not applicable	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
