

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_82145
Title of the Manuscript:	Knowledge, Attitude & Practice of Ultrasonic bone surgery (Piezo electric) among Dentists in the state Tamilnadu- KAP study
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ul style="list-style-type: none"> - Only the advantages of using piezosurgery are mentioned. Its disadvantages should also be noted that reader of the article be able to judge. - 'Even piezosurgery has got so many advantages in the field of dentistry, most of the dentists do not practice it due to the lack of Knowledge and awareness'. Mention the reference please. - 'Among the participants, 53.8% gave the correct response regarding the effective piezoelectric wavelength'. It means that about half of the participants can not use piezosurgery properly, so, the study data is not reliable to be analysed. Please clarify that how many of the dentists using piezosurgery (N=55) were aware of effective piezoelectric wavelength. - 'It has a high precision and safely cuts the hard tissues sparing soft tissues, nerves and vessels'. Mention the reference please. - 'In the past decades, bone cutting was customarily performed using motorized instruments. Excessive heat production, requiring irrigation from external source and pressure exerted by the increased vibrations from the burs were the inadvertent effects of using these motor driven devices'. Mention the reference please. - 'More than 80% of dentists accepted that patient compliance is more while using piezotome'. Note the used index please. 	
Minor REVISION comments	<ul style="list-style-type: none"> - Explain about Ultrasonic bone surgery (piezo electric) in the 'introduction' part. 	
Optional/General comments	<ul style="list-style-type: none"> - You would better to use 'Physician satisfaction score and patient satisfaction score' to identify the efficacy of piezosurgery in comparison with other procedures. 	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
