PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Required some minor modification- 1. In result, it could be better to merge table no 2 & 5 with two column comparing signs & symptoms between adults and children. It will help to determine any significant different between adults and children. 2. Any association between demographic variables and TS disorder P value can be mentioned in table 1. And Table no 8 can be deleted, so it will make manuscript more appropriate and avoid unnecessary lengthy article. 3. There are too many grammatical and typological error in whole manuscript.	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
