Minor REVISION comments	<p>Abstract can be written without subtopics</p> <p>Justify the aim of the study (e.g. by assessing the fear and anxiety, those can be identified and mitigated which improve the dental visiting and care hence the quality of dental treatment) – mention this in the introduction as well to justify the study</p> <p>Knowledge about carrying infection – how did you evaluate this/?? By asking questions on mode of transmission of virus or.....?? explain (feel some of this part has gone to attitude domain questions)</p> <p>Anyway the study is a good work and better to perform similar studies among dentists too (be specific, mindful and selective in finding questions for each domain)</p>
