PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<p>There are some capital letter inside the abstract, also we think the authos must specify the country where the study was conducted.</p> <p>There are some abbreviations without previously specifying the meaning.</p> <p>Please unify the term COVID-19, sometimes appear in capital letters and sometimes not.</p> <p>Please use the correct way to express the p values according the authors guide.</p> <p>Pease check the authors guide for references. There are some authors citation with no reference number after the author's name in the discussion.</p> <p>Why the small number of patients is a limitation??, it supposed the population was calculated to have a specific power with a statical program...</p> <p>This questionnaire was before applied??, also why is difficult to difference between the fear for covid and the fear for dental procedures???, this questionares was previously validated???</p>	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
